iONX

UNLEASHING SUSTAINABLE POWER

Modular. Intelligent. Reliable.

Air-cooled, adaptable rack-mounted storage enabling scalable, efficient energy use.

The iONX Core Series is our most versatile and scalable high-voltage solution, designed for flexible installation on modular racks.

Each 16 kWh Air-cooled module features both Active and Passive balancing, ensuring efficient thermal management and long-term reliability. With capacities ranging from 129 kWh to 241 kWh per cluster and up to 16 clusters in parallel,

iONX Core delivers a future-proof energy storage solution with 12-Year/10,000 cycles product warranty with an 80% depth of discharge.

It supports leading inverter brands, integrates its intelligent tiered management with leading EMS, and is built for easy installation, safe operation, and aesthetic appeal, ensuring seamless compliance with regulations and optimal uptime.

Product features

Intelligence

Autonomous A.I battery management with predictive fault detection for safe, optimised performance.

3Tier Control

Three-layer management ensures precise energy flow, system stability and efficient battery operation.

Modularity

Flexible, modular design scales effortlessly with your changing energy needs.

12-Year Warranty

10,000 cycle life backed by a reliable, cost-effective 12-year warranty.

Support

Direct, comprehensive support structured for smooth implementation and long-term success.

PRODUCT DETAILS

Racking

Individual 8Tier racking for easy and efficient assembly.

Slide in Battery + Earth

Easy slot-in battery with rack integrated earthing point.

E-Stop

Easy access for safe system shut down from any paralleled cluster.

DC Disconnect

Each Cluster has a DC disconnect to isolate the cluster during maintenance.

Cover Plates

Easy clip on cover plates for cluster tidiness with blank cover options for empty rack slots.

HV Control Screen

Know at an easy glance for easy cluster commissioning battery cluster status and info.

Cable Trunking

Neat housing to ensure all cabling is concealed.

Parallel 16 Clusters

Parallel up to 16 clusters with iONX 3Tier control to maximise plant capacity while ensuring system stability.

3Tier Management

A 3Tier Manager Screen is included from 5Tiers and higher – allowing for Super DATA management

Earthing and Grounding

Each battery module and HV box is earthed directly to the rack via a simple screw fixation. Racks are interconnected and bonded to a common earthing point. Grounding contact surfaces between rack, modules, and HV unit ensure reliable continuity. A dedicated rack grounding point allows quick, safe connection to the plant's grounding system, ensuring the entire rack is earthed and preventing unearthed modules.

BATTERY MANAGEMENT

Software features

Product highlights

Cloud platform

- Real-time visualization at both **power station** and **equipment levels**
- **Centralized management** of multi-station operational indicators
- Seamless integration with **energy storage, photovoltaic, and charging equipment**, enabling unified monitoring and control
- **Flexible control strategies** configurable by time period, battery status, or load type
- Advanced **value mining, AI-based prediction, and decision analysis** powered by big data
- **Multi-operator access support** with complete data isolation for security and privacy
- **Customizable reporting**: generate daily, monthly, and annual operational and revenue reports with ease

Mobile platform

- Real-time monitoring of key parameters of energy storage equipment
- **Early warning & alarm system** with remote fault diagnosis capabilities
- **Comprehensive reporting** on charge/discharge data and revenue statistics
- **Account permission isolation** with support for both Chinese and English interfaces
- **Remote mobile management** of energy storage equipment and energy utilization

SPECIFICATIONS

- ✕ Flexible (between 129 - 241 kWh)
- ✕ Modular up to 3.858MWh – Parallel further with multi 16 Clusters to increase project size
- ✕ Tier 1 A-Grade battery cell modules
- ✕ 10000 cycle / 12 year warranty
